Drugs or the Surgeon's Knife.**

## Heals Heretofore Incurable Diseases

By Subtle Fluid Called "Liquid Life," Said to Generate Wonderful Magnetic Energy and Vital Force. Contains the Great Dynamic Power of Life.

## MEDICAL SCIENCE COMPLETELY UPSET BY LATEST MARVEL OF MODERN CHEMISTRY.

NEW YORK (Special Correspondence).—Dr. Wallace Hadley, a well-known chemist of this city, has created a veritable sensation among doctors and scientists. His restoration of Mrs. Fitzgerald, of St. Louis, to vigorous life and health, as a test case, and his saving the life of Mr. B. R. Hall when 10 doctors had failed (also a test case), has forced the belief that after all the marvelous claims for this wonderful discovery may not be exaggerated. A reporter called on the doctor at his laboratory to get further details in regard to these miracle cures and how they were performed. In reply to a question, Dr. Hadley said: "There it is. This is the 'Liquid Life,' corks and sealed. The arch enemy of disease and death. With the contents of that jar I can combat any disease that flesh is heir to." The doctor pointed to a tightly sealed glass vial containing an amber-colored fluid that sparkled like champagne, while the glass itself appeared to quiver and vibrate if the effort of restraining the dynamic force it held.

"But what is this discovery, this miraculous power you have?" was asked. "I have told you. Life itself. The foundation of all existence. The principle that animates and governs every living and breathing thing. That fluid holds the secret for which the wise men of all ages have been seeking—the Force of Life concentrated."

"That is the crown of years of study and labor, dear research, of immense expense; that is the restorative potent that has caused me to be called 'Divine Healer,' 'Scientist of the Supernatural,' 'Neuro-magnetic,' 'Magnetic Worker,' etc. Of course that is exaggeration. I am a scientist, and this is a purely scientific discovery. Long ago I was convinced that no disease should cause death that God had provided a cure for every human ill. So I went to work. I found a way to extract the constituent elements of a human body from animal, vegetable and mineral substances, and combine them as they are found in man. My next and most serious difficulty was to find the way to generate the mysterious magnetic force that animates the nerve and brain centres; that makes the heart beat and the brain think. When I succeeded in making the combination of all these you see before you, I tried it on myself, on my assistants, on all the worst and most helpless invalids I could find in the hospitals, especially those afflicted with incurable diseases. The results were marvellous, far beyond anything I had dared to hope. The dead, the bedridden, the hopeless, were raised as if by magic; then I tried it on patients at a distance, people whom I never saw, and who merely wrote to me the symptoms of their ailments, and again I proved my mastery over disease and death."

"I particularly remember the case of Mrs. Laura Fitzpatrick, of 123 South Third street, St. Louis, Mo. She was practically dead and on her way to the grave when my treatment reached her, for the doctors said that her hours on earth were numbered and there was not the slightest hope for her to live. Her relatives and friends had already bidden her a long, last farewell. Yet my discovery brought her back to life, health and strength. And remember that I never even saw her. Here is a letter from her, which you are at liberty to publish, and which reads as follows: 'The reported word for word, the following extract from Mrs. Fitzpatrick's letter: 'I would have been dead if it had not been for you. You have saved me. That your curing is a miracle as case as mine was a miracle of healing. Your discovery has done wonders for me. I had been told that I was incurable, and they pronounced my case in-

has many beautiful plants in the sheriff's office at the court house. Among them is an orange tree with twelve oranges on it."

A wedding occurred here in Minneapolis on February 17, the contracting parties being Mr. Ira Cleveland, who is connected with the Minneapolis foundry, and Miss Catharine Rice, of this city.

**Pythians at Wichita.**

Wichita, Kan., Feb. 20.—Grand lodge officers and a large attendance of delegates made up the twelfth annual district convention of Knights of Pythias, held here Friday afternoon. At night the Warwick lodge of this city conferred the degrees upon candidates for the benefit of visiting knights. Among the prominent state Pythians present were: Grand Chancellor Frank L. Britain, Osage City; General H. Lyon, Leavenworth; head of the Uniform Rank brigade of Kansas; Past Chancellor W. J. Duval of Hutchinson, and W. F. Ready, Wellington, chairman of the judiciary committee.

## KANSAS NEWS.

**The Body of Dr. Swenson at Rest at Lindsborg.**

**About 3,000 People Were at the Train to Mourn.**

**BUSINESS SUSPENDED.**

**The Postoffice, Court House and Stores Closed.**

**McPherson Likewise Did Honor to the Dead.**

Lindsborg, Kas., Feb. 20.—The body of Dr. Swenson arrived at 3:20 o'clock Friday from Los Angeles, Cal. The Lindsborg Commercial club, the students and faculty of the college, members of the Swedish Lutheran congregation and friends from neighboring congregations escorted the body. About 3,000 people were at the train. The procession passed through Main street, which was in mourning. All business houses were closed from 2 o'clock to 4 o'clock. The many visitors from afar are being taken care of by a committee appointed for that purpose.

McPherson, Kas., Feb. 20.—This city was in mourning Friday, and almost every business house was closed during the time the body of Dr. Carl Swenson was in the city. The postoffice was closed, an unusual thing; the court house offices closed, and the court house flag hung at half mast. At the Swedish Lutheran church the casket was placed before the altar, which had been appropriately draped for the occasion. An escort provided by the church stood guard over the body until time for the afternoon Union Pacific train to Lindsborg, when it was again placed in the hearse and the line of march formed, with the Rev. Mr. Engvall representing the church and Mayor Krehbiel, representing the city, at the head of the column, which extended for nearly two blocks of close-order marchers.

The pall bearers of this occasion were: J. C. Gillman, E. W. Rusk, J. O. Stromquist, J. L. Loken and G. F. Gratton. At the Union depot the body was given in charge of the Rev. Mr. Engvall, the Rev. A. A. Lakson of Hutchinson and Mr. Anderson of Sioux City, Iowa. Dr. Abrahamson and Mr. Anderson accompanied the body from Lindsborg.

As announced the funeral will take place in the Bethany auditorium in Lindsborg Tuesday afternoon at 2 o'clock and the body will lie in state in the auditorium on the same day from 9 o'clock in the morning until in the afternoon.

Dr. Brandell of Denver, the president of the conference, will make the English sermon at the funeral service.

**TERRITORY ABOUT WICHITA.**

**Gain in Population and Products Is Shown.**

Wichita, Kan., Feb. 20.—Prof. W. H. Casey, statistician of the chamber of commerce, has just filed the following table with Secretary G. W. Smith containing the third annual report of the population, products and values for the past year.

The area to which these data apply is in the territory lying within a radius of 100 miles from the city of Wichita. The population of this territory in 1903 was 135,343, an increase of 1,755,139 over the population of 1902. The area is also shown in the table.

An examination of the table shows that population has made a substantial gain, there being 17,238 more people in 1903 than in 1902. The area is also shown in the table.

The table showing population, products, live stock and values within a radius of one hundred miles of Wichita for the years 1902 and 1903:

	1902.	1903.
Population	666,596	683,834
Wheat produced	55,425,425	55,234,234
But corn produced	90,255,252	75,255,252
But oats produced	10,102,535	30,102,535
Horses and mules	148,125	149,125
Cattle	1,755,139	1,755,139
Swine	114,075	82,062
Value of live stock	137,067,415	174,443,563
Value of farm products	107,263,169	92,351,351

Total value of live stock and farm products—\$1,185,344,682 in 1902 and \$1,170,944,682 in 1903.

This report will be included in the World's fair book on which Secretary Barnes is now engaged in getting ready for publication.

**FOR FIRE PROTECTION.**

**Wellington Citizens Decide to Form a Mutual Company.**

Wellington, Kan., Feb. 20.—The business men of Wellington have decided to organize a mutual fire insurance company that will insure the city property. In order to fight the recent competition advance in insurance rates by all insurance companies.

Many business men have refused to insure their property in rates and have let their property go uninsured. The company will not confine its business to the town only but will write insurance in the adjoining territory.

**The Bride Had a Hard Fall.**

Holton, Feb. 20.—William Bottom and Louisa Bradley were married by the Rev. J. Edson at the pastor's home in this city Thursday night, and as they were leaving the parsonage the bride slipped on the ice and broke her leg. The husband, assisted by friends, carried her to his home, summoned a doctor and had the fracture set. Mrs. Bottom is a daughter of the late Brigham Young, a Kansas namesake of the Mormon apostle.

**Wild Ducks Plentiful.**

Leavenworth, Feb. 20.—Duck hunters and wealthy sportsmen in Leavenworth are astounded. Wild ducks have already begun to come north, but the weather is still remarkably cold for this season of the year and the impression prevails that either the duck

accents failed to consult the ground hog or the advance guard has made a serious blunder. For the first time in years the wild ducks are to be seen in the neighborhood of the river sloughs and lakes, but there are neither feeding grounds nor open water for them to resort in. Farmers who came across the river from Platte county report having seen large flocks of ducks in fields, but that they were either so numbed by the cold or weakened by hunger that they were unable to fly and hardly moved out of the way of wagons while passing through fields.

**INDEPENDENCE COAL.**

**A "Duster" Oil Well Proves to Be a Blessing in Disguise.**

The oil and gas resources of Montgomery county are insignificant when compared with the wealth that has been discovered by prospectors for oil on the farm of William Dunkin, four miles from Independence, south and east, on the southwest quarter of section 33-35-16, says the Independence Reporter.

At a depth of 700 feet the drill penetrated a stratum of coal of fine quality and four feet thick. At a depth of 1,000 feet a stratum of coal eight feet thick was passed through. Two hundred feet lower the Mississippi lime was encountered.

So far as the quest for oil is concerned the well was a failure. But, as Mr. Dunkin expressed it to a Reporter representative this morning, it is a blessing in disguise. There is in this instance no gas or oil to interfere with development.

**MR. QUOTAWAIMA GOES BACK.**

**Hopi Indian Will Return to His Native Heath in Arizona.**

Rev. H. R. Voth and the Indiana Quoyawaima, have been notified to return to their work in Arizona, and will take with them Miss Henrietta Welty, who will act as stenographer to Mr. Voth during his stay of a month or six weeks.

Quoyawaima has taken on many of the ways of civilization and is going back to his people a very different appearing man from the one who came to Kansas last fall. His only request was that he be allowed to have his hair cut, and that has been granted, and many are the ways he has arranged it in order to please the Indians.

He is disappointed that he is not to go to Chicago, but the cases are not ready for the display at the Field museum, which is in the "big nine" team. Voth will have the assistance of another one of his Christian Indians, when the time comes to install the exhibit.

**THE OLD HOME PLACE.**

**A Son Gets Property Lost Years Ago by His Father's Debt.**

By a strange irony of fate a citizen of this neighborhood has become the owner as a gift of one of the most valuable farms in the county, lost by his father through a mortgage years ago. The place in question is the Idlewild farm adjoining the big Wellhouse orchard at Summit, for some years occupied by John B. Greaves. Still is the beneficiary of the gift and he received the deed to the place ten days or two weeks ago.

The Idlewild farm contains 350 acres nearly all tillable, and the fine house sits surrounded by one of the most attractive lawns in the country. The farm is valuable one. The place has been owned for years by Benjamin Rose, of Cleveland, O. The late Mrs. Rose was an aunt of Mr. Still, and it was generally supposed that at her death the farm would go to him. But such was not the case. She has been dead about a year.

Stillie Still lived on the farm he received as a gift for a number of years, there being 17,238 more people in 1903 than in 1902. The area is also shown in the table.

**CAPTURED IN WICHITA.**

**Two Ohio Women Wanted on the Charge of Murder.**

Wichita, Kas., Feb. 20.—Kate Phole and Lillian Stevens were arrested here Friday afternoon on information furnished by the sheriff of Crawford county, Ohio, charging them with manslaughter, alleged to have been committed at Bucyrus several days ago. The women were taken to the jail, and from there to this city.

The young women say they saw the killing, but had nothing to do with it. The victim was a young man who was clubbed to death. They declared that it was done by a rival for the hand of one of them. On account of the inability of the sheriff to get extradition papers owing to the death of Senator Hanna, he telegraphed Chief Burt to hold the women until Monday, but when informed of the case in the prison, officers agreed to go without the papers.

**Western Rural Carriers.**

Washington, Feb. 20.—These rural carriers have been appointed: Kansas—substitute, Sarah J. Kincaid.

**"77" Cures Grip and COLDS Prevents Pneumonia**

## SPORTING NEWS.

**Jim Corbett Did a Lively Stunt at Cleveland.**

**Knocked a Football Player Out in the First Round.**

**CORBETT NOT AT FAULT**

**Tried to Persuade the Nolsy Drunkard to Behave.**

**Told Him the Tile Floor of the Saloon Was Pretty Hard.**

Cleveland, O., Feb. 20.—James J. Corbett, former heavyweight pugilist champion, who is doing a vaudeville stunt at the Colonial this week, was the unwilling participant in a barroom scrap Thursday night. He entered a downtown saloon to take a lunch. A few minutes later Charles A. Boyle, a graduate of Dartmouth college and a football player of fame, who has been a coach for various Ohio college teams, came in. He saw Corbett and made the remark that he could lick anyone in the house, Corbett included.

Corbett did not lose his temper, but tried to argue Boyle out of it, saying that the tile floor was pretty hard and wouldn't be a good place to fight upon. Boyle then made a pass at the prize fighter. The blow never landed. Corbett put out his right and left in rapid succession. Both landed on the point of Boyle's jaw. The football player fell away. He had nothing further to say about fighting.

**PURDUE CUTS K. U. OUT.**

**Manager Plank Feels Somewhat Discouraged Over This Action.**

Lawrence, Kan., Feb. 20.—Manager Plank has received a telegram from the athletic manager of Purdue university stating that the date which Kansas supposed was settled, could not be arranged for. Manager Plank said the remark that he was not sure now that Kansas could arrange with Purdue at all, but that the Indiana State university, which is in the "big nine" team, and also Notre Dame wants to play Kansas. It is probable that both will be brought here if no game can be arranged with Purdue. If Purdue and Indiana may also be scheduled for Lawrence. This would make an exceptionally good schedule.

While the doubt regarding Purdue will cause some anxiety to the Kansas athletic board, still as matters stand Purdue in refusing to come would not spoil the schedule. Indiana is in the "big nine" team and is probably a great attraction here as Purdue. Notre Dame is not a "big nine" team but has a fair standing in athletics.

Manager Plank said today: "We don't know just what will be done. We will doubtless have either Indiana or Purdue, possibly Notre Dame also. The prospects for a good schedule are much brighter than they were a short time ago and I believe it will be better than that of last season."

**JOHNSON NAMES COMMITTEE**

**Killies, Comiskey and Mack to Draft Schedule for American League.**

Chicago, Feb. 20.—Ban Johnson has appointed Henry Killies, Charles A. Comiskey and Connie Mack, on the American league schedule committee to confer with Barney Dreyfus, Ned Hanlon and James A. Hart of the National league and adopt a nonconflicting schedule for the coming season. This action was necessary because the American league leader will be too busy for the next two weeks to attend to the details of arranging a programme of games for the coming summer.

Johnson is in Cincinnati conferring with Garry Herrmann of the national commission. He will go from there to Washington, where he expects to settle the question of the new ownership of the Senators. John R. McLean and Congressman Wadsworth are likely to take a majority stock in the club. Herrmann will hand down his decision in the Gotham Sunday baseball publication in a few days and Johnson is satisfied that the decision is going to be in favor of the American league.

**CARTER DOWN AND OUT.**

**George Gardner Proves Too Fast for the Brooklyn Lad.**

Milwaukee, Feb. 20.—George Gardner defeated Kid Carter in a six-round bout before the Milwaukee Boxing club last night. The first and second rounds terminated with honors even. The third round was a close one, Carter's face, bringing blood to the nose and closing the right eye. In the same round Carter closed Gardner's left eye. In the fourth round Gardner was knocked by a right to the jaw and left to the stomach, the bell saving him. The fifth and sixth were Gardner's rounds by a wide margin, he scoring two knockouts in each round. In the fifth Carter took eight of the count, and in the sixth went down from a stiff right and left to the jaw just before the gong sounded.

**DISMANTLE OLD GUTTENBERG**

**Famous Race Track Will Be Out Up Into Building Lots.**

New York, Feb. 20.—Workmen today began to dismantle the old betting ring at the Guttenberg race track. They were sent there by Mayor Fagan of Jersey City, who is the largest shareholder of the stock company that controls the property. For years Guttenberg was the scene of many contests between famous horses. It is said the land will be turned into town lots.

**Boston Nationals Sign Collegian.**

Boston, Mass., Feb. 20.—Cannell, second baseman of the Tufts college team, has been signed by the Boston Nationals. He has been captain of his studies Tufts team, but falling in his studies the faculty barred him from further connection with the team. He is going to play professionally, and Treasurer Billings of the Boston club, who has been looking for a first class infielder, seized the opportunity. Dooley may be released.

**Milwaukee Secures Bateman.**

Richmond, Ind., Feb. 20.—Fred Bateman, who has played on many Ohio and Indiana ball clubs, has been signed by Milwaukee.

**Britt Is Very, Very Rare.**

San Francisco, Feb. 20.—In order to secure a match with Young Corbett, Britt had to make concessions in regard to the division of the purse, which insured the champion a good sum even if beaten. Corbett and Britt will divide the money even in case the champion

EST. 1847.

**Alcock's**

**POROUS PLASTERS**

Are a universal remedy for Pains in the Back (so frequent in the case of women). They give instantaneous relief. Wherever there is a pain apply a Plaster.

DIRECTIONS FOR USE

For pains in the region of the kidneys, or for a Weak Back, the plaster should be applied as shown above. Wherever there is a pain apply Alcock's Plaster.

For Rheumatism or Pains in Shoulders, Elbows or Joints, or for Sprains, Stiffness, etc., and for Aching Feet, cut plaster into small pieces and apply to part affected as shown above.

For Sore Throat, Coughs, Bronchitis, or Weak Stomach, apply the plaster to sensitive parts of the abdomen, as indicated.

**Rheumatism, Colds, Coughs**

**Weak Chest, Weak Back**

**Lumbago, Sciatica, &c., &c.,**

REMEMBER—Alcock's Plasters are the original and genuine porous plaster and have never been equalled as pain-killers. Furthermore, they are absolutely safe as they do not contain belladonna, opium or any poison whatever.

loses, but in the event that he wins he will draw down 60 per cent of the victor's share and Britt 40 per cent. So, no matter how the battle goes, Corbett will not have his trouble for nothing. "I am sore to think that I ever signed those articles," complained Jimmy, "and I admit I'm not a Corbett but 'way the best of it. Just think, if I beat him he will split the purse with me. That's pretty tough, but I want to fight him so badly that I agreed to this."

**WHAT OF THE HIAWATHAS?**

**The Indian Football Players Are Without a Coach and Manager.**

Athletics at Haskell Institute is pretty much at a standstill at present, owing to the place of manager of athletics being still vacant.

Manager Berry left several weeks ago for a permanent position in Topeka, and Superintendent Penals has not chosen his successor as yet.
